

Statement by Workers in the Public Cultural Sphere in Lebanon

Thursday 17 August 2006, by [Collective / Multiple signers](#) (Date first published: 25 July 2006).

The signatures have been updated to August 15, 2006.

We the undersigned declare:

Our conscious support for the Lebanese national resistance as it wages a war in defense of our sovereignty and independence, a war to release Lebanese imprisoned in Israel, a war to safeguard the dignity of the Lebanese and Arab people.

Our unambiguous refutation of the logic that accuses HizbAllah of having provided the “pretext” for the Israeli invasion. Israel did not invade Lebanon, destroy its infrastructure, displace and murder its populace because of the heroic operation carried out by HizbAllah. Israel has never needed a pretext to breach the sovereignty of Lebanon, Palestine, Iraq, or other nations. Rather, the recent Israeli aggression is the latest in a long series extending back to the founding of the Zionist state and motivated by both historical ambitions vis-à-vis Lebanese territory and waters and by a racist supremacist ideology that denigrates the indigenous population, their culture, and their very existence. The most recent aggression is, more specifically, the realization of a long-standing, openly professed desire of Israel to avenge for its humiliation at being driving out of most of Lebanon by the resistance operations that began in September 1982 and had their fruition in May 2000. Israel’s very avowal of intent to implement by its own powers UN Resolution 1559 is itself proof that its invasion of Lebanon today surpasses any mere response to the above-mentioned operation and serves an American policy that aims at annihilating all viable opposition in the world at large, and at direct control of the Arab world and its resources in particular. How strange that Israel should wish to be the policeman in charge of executing UN Resolution 1559 when it has not yet executed any of the previously issued UN resolutions addressing its own actions, with the exception of the partial implementation of Resolution 425, which resulted essentially because of strikes inflicted by the armed Lebanese Resistance.

Our staunch condemnation of official American support for the Israeli aggression. The war crimes Israel is currently committing, as well as those it committed in the past and will commit in the probable future, would not have occurred or occur yet without America’s political and military support for Israel, that which is unmitigated by its allegedly unswerving espousal of Lebanese freedom, sovereignty, and independence.

Our utter rejection of the Lebanese government's decision to "not adopt" the Lebanese Resistance operation, thereby stripping the Resistance of political credibility before the adversarial international powers, when it behooved that government to deem the said operation as consistent with its Ministerial Proclamation in support of the liberation of the Lebanese prisoners in Israel, of Shebaa Farms, and of Kfar Shuba.

We the undersigned, in declaring our intentions, also therefore, call upon:

The Lebanese government to realize its full responsibilities, especially in terms of embracing the Lebanese Resistance in diverse ways, and particularly after the clarification of Israel's plan to destroy the infrastructure, institutions, and political entity of Lebanon.

Arab intellectuals to stand beside the Lebanese Resistance, to expose the Zionist racist, supremacist impetus, and to document Israel's crimes against Arabs since its founding. Likewise, we ask our Arab colleagues to confront the continual calls for capitulation (wrapped in the cloak of "realism"), and to expose both the American bias towards Israel and the complicity of the majority of "rational" Arab governments against the Lebanese Resistance. We, also, ask that you take a stand against all kinds of normalization with Israel, by closing down the Israeli embassies and government offices located in Arab countries, and by boycotting products of Israeli and pro-Israeli companies, whatever their nationality.

Lebanese intellectuals, in particular, not to be swayed by the (il)logic that accuses HizbAllah of having destroyed the Lebanese economy, but instead to hold Israel fully responsible for its age-old policy of destruction and war crimes. The principle of the Lebanese Resistance is to be a deterrent force against Israel's ability to pursue that policy with impunity.

Free-thinking intellectuals the world over, and advocates of justice and peace, to publicize the history of Israeli aggression and to pressure the American and European governments to halt their military and material maintenance of the Zionist killing machine. Similarly, we call upon our peers the world over to announce a boycott of Israeli products, and of Israeli academic and scientific institutions that do not condemn the Israeli aggression against Lebanon. Furthermore, we invite intellectuals of the world over to visit Lebanon in order to stand by the side of their Lebanese colleagues and to view first hand the results of Israeli war crimes against civilians, schools, infrastructure, humane institutions (foremost among them the Lebanese Red Cross), and media (which, in addition to sustaining hits on its press convoys and aerial transmitters, most recently lost to Israeli fire the reporter Layal Najib). The solidarity of world intellectuals with the Lebanese people, press, and culture-workers, in such direct terms, would constitute an international declaration of the refusal to permit Israel to treat Lebanon as a mere "military target" for its airplanes, warships, tanks, and "smart" bombs.

Resistance is an intellectual act par excellence. That is because the goal of intellectual activity, like resistance, is to defend the values of justice and equality of all people. For this reason we, the undersigned,

consider, regardless of our varying intellectual inclinations, cultural and critical activity an integral part of Lebanese national resistance, indeed of resistance to injustice anywhere in the world.

Beirut, July 25, 2006
