We, members of the Communist Party of the Russian Federation, the Revolutionary Workers' Party, the Russian Socialist Movement, the Left Socialist Action, citizens of Russia who adhere to leftist and democratic views, declare the following in view of the outbreak of hostilities on the territory of Ukraine:

- We condemn the decision taken by Russian President Vladimir Putin to invade Ukraine, as this will lead to the death of thousands of people on both sides. The economic situation of the workers of both countries will worsen. The current invasion seeks only to satisfy the obnoxious foreign policy ambitions of a narrow circle of Russian leaders, as well as is a way to distract attention from the failures of the Russian government in domestic policy;
- We demand that the Russian leadership immediately stop aggression against our brothers and sisters of the Ukrainian people;
- We call on all Russian citizens who adhere to leftist and democratic views to publish on their social media pages a demand to the Russian leadership to stop armed aggression against our brothers and sisters of the Ukrainian people. We urge you to conduct anti-war agitation among your neighbors, relatives, colleagues and other citizens of Russia!

If the existing government is not able to provide peace to the peoples, then the way to it will lie in a radical change of this government and the entire socio-political system.
