Declaration on War

Saturday 2 February 2002, by [World Parliamentary Forum](#) (Date first published: 2 February 2002).

The World Parliamentary Forum held in Porto Alegre, condemn the final declaration from George Bush and the USA Secretary of State Mr. Colin Powel in the "World Economic Forum" in New York; which indicates Iran, Iraq and North Korea as the next targets of the USA unilateral military attacks.

We are convinced that a military intervention will not end the terrorism and the war cannot be the way to solve the world's issues.

We do not want tragedies, wars and conflicts again, which caused the death of so many civil innocent victims, like the recent situation of the terrorists attacks at the World Trade Center and the Afghanistan war.
