To Comrades

Representatives of Communist and Workers' Parties

Dictator Hosni Mubarak has committed a new massacre, this evening, against Egyptian people.

The police forces of this dictator seized the buildings around the Liberation Place, in Cairo center and opened fire on protestors. 500 persons are killed and many thousands are wounded, including leaders of “Comity of 10”.

We could join our Comrade Salah ADLI, member of Political bureau of Egyptian Communist Party, who was on the scene, and, in agreement with him and other leaders of protestation movement, we ask you to demonstrate your solidarity with Egyptian people who struggle today for its liberty and human rights.

Cry loudly our outrage against a criminal who do not hesitate to transform his country in a big jail and to build his power over thousands of corpses.

Show our solidarity in action, tomorrow Thursday, with rallies and sit-in near the Egyptian embassies in our countries.

Demand the removal of the dictator and dragging him to justice for his past crimes and especially for his new present crimes against 85 millions of human being.
