

Philippines: solidarity with the survivors of Super Typhoon Haiyan/Yolanda - Financial Report and New Stage in Ormoc City & Leyte

Tuesday 22 April 2014, by [MiHANDs](#) (Date first published: 15 April 2014).

We are reproducing below Mi-HANDs's "Early Recovery and Rehabilitation Update" n° 1. It present a detailed financial report concerning November 2013 to March 2014 and the beginning of the new phase of the solidarity work in Ormoc City & Northern Leyte.

The second team that was sent to Leyte and Ormoc City on January 27, 2014 returned to Mindanao on February 5, 2014. They went back to re-establish contact with LGUs and other agencies, reconnect with the people that were served during the emergency response and to conduct basic area profiling to gather data that will be used as basis for the initial activities that will be conducted at the start of the early recovery and rehabilitation phase. Several meetings were conducted to consolidate the gathered data and to scout for possible staff.

On February 16, 2014, MiHANDs convened the final preparation meeting to decide on the initial personnel and volunteers who will operate the office in Ormoc City, decide on the immediate activities that will be conducted while validating the data gathered, office setup (equipment, supplies and logistics) and of course the budget needed for operations. Mr. Arlieto Berlan, the executive director of RDRRAC, agreed to head the Ormoc City staff and act as MiHANDs Coordinator. Also named was Mr. John Montilla, a Sendong survivor, as Psychosocial Services Program Coordinator and will act as finance officer while Mrs. Manuela Laranjo was named Health Program Coordinator and will act as Administrative Officer.

The third team travelled to Ormoc City on February 20, 2014 and arrived in the City at around 10:00 AM of February 21, 2014. This marks the beginning of the Early Recovery and Rehabilitation stage and the second phase of the intervention. Aside from the three personnel chosen, an additional four personnel from the different institution supporting MiHANDs also travelled to Ormoc City. One of the four additional personnel travelled with the three staff via Surigao City and the other three via Cebu City on the 21st of February 2014 for the purchase of Desktop and Laptop computers and other electronic equipment and will help in the setting up of the office. The group that travelled via Cebu City arrived in Ormoc City on February 22, 2014.

As mentioned in Update No. 12, a contract for the rental of an office space was made before the second team came back to Mindanao in February 2014. They made sure that the next team that will come to Ormoc City would not be burdened anymore in finding an office space.

After clean up, purchasing and setting up the office equipment, installation and setup of internet connection, the team visited the target barangays on February 24, 2014. The team conducted its first staff meeting on February 25, 2014 to discuss on the possible activities to be conducted in each barangay visited while the other four personnel who helped in the setting up of the office headed for Mindanao early in the morning of the same day via Surigao City.

The team conducted Disaster Risk Reduction- Climate Change Adaptation trainings in Barangay Latosan, Palompon, Barangay Bangkal, Villaba and DPL, Ormoc City in the early part of March 2014. Training in Tambulilid, Ormoc City was postponed due to unavailability of reliable data. The rest of the time in March 2014 was used for the validation of data that was gathered by the second team.

MiHANDs has already assessed the previous intervention – Emergency Response and Relief Distribution. The total number of families served was 1168 or 4672 individuals at an average household size of four. The table that follows summarizes the funds generated, its sources, and the expenses by funder.
