**Comrade Badrul Alam, General Secretay of the Communists Party of Bangladesh-ML(CPBML) strongly condemned the atrocious murder of BUET student Abrar Fahad by the hands of identified student miscreants. He demanded to the government to ensure proper justice including exemplary punishment to late Abrar and his family. He expressed his deep sympathy to the bereaved and shocked family members.**

As far as known, Fahad posted critical text on recent agreements between Bangladesh and India during the visit of Prime Minister Sheikh Hasina. Fahad has the democratic right to do so. For that reason he could not be a victim of death.

The odd culture of politics should be uprooted from the country and tolerance to others' opinion should be established. Everybody should bears in mind killing is solution to nothing. Rather killing begets killing. He also called upon all to give up the path of violence.

Comrade Badrul Alam also expressed his deep concern over the recent complex political dynamics including casino culture and its impact on economy and society.
